

COMPANY DESCRIPTION:

Acrymax Technologies Inc. has manufactured high-performance coatings since 1951. We offer solutions for our clients through engineering, formulating, manufacturing, and marketing protective coating systems and fluid applied roofing systems. Acrymax specializes in elastomeric materials and focuses on safe-to-use water-based technology. Our coatings and systems have been used successfully in markets that include construction, roofing, historic preservation, OEM, aerospace, marine, and corrosion-control.

JOB DESCRIPTION:

We are seeking a qualified candidate to join our production/warehouse team.

Applicants must be self-motivated. Good communication, organizational, and computer skills required. Experience within a manufacturing environment is a plus, but not necessary if you are willing to work hard and learn on the job. Must be comfortable working inside an office as well as on the shop floor. Competitive salary and benefits. Located in Media, PA.

As the Production Supervisor, you will coordinate and participate in activities of manufacturing of coatings, and oversee daily operations making sure production schedules are met. You will be responsible for making sure that the production work is carried out correctly, on time and in a safe manner. Additionally, you will be expected to recommend improvements in production methods, equipment, operating procedures and working conditions.

Responsibilities:

- Report to and coordinate with the Operations Manager for the day at the start of and conclusion of each day
- Direct and participate in the accomplishment of the daily tasks/goals.
- Work with Batch Operator to ensure efficient and correct production of batches.
- Ensure smooth flow of materials from incoming shipments.
- Ensure raw materials are staged properly to provide for efficient production flow.
- Ensure that the packaging of the products is done in an appropriate manner.
- Ensure that all products are properly labeled.
- Ensure that the warehouse is properly organized and maintained at all times.
- Assist in the quality control process.

Requirements:

- Ability to communicate effectively with both verbal and written communication
- Proficient in basic computer skills
- Ability to climb a ladder, transition on and off the ladder and on to and from a roof is required
- Ability to work overtime as required.
- 2 or 4 Year degree preferred although not required

HOW TO APPLY:

Applicants can submit resume to Acrymax Technologies, Inc. (221 Brooke St, Media Pa 19063) through mail or physical drop-off. Applicants may also email resumes to info@acrymax.com indicating interest in applying to a full-time production position in the subject line.
