# Sealant & Coating Formulation Chemist (Branchburg, NJ)

## Job Description

**Specified Technologies** is an industry leader in developing innovative fire protection systems that help stop the spread of fire, smoke, and hot gases. For over 25 years, our team has worked hand in hand with the construction industry to create simple solutions to complex fire stopping problems. We are looking for a **Sealant & Coating Formulation Chemist** with 10 plus years' experience in new product development, product upgrades, technical service and regulatory compliance for fire protection products including: Elastomeric sealants and spray coatings, intumescent caulks, sealants and putties.

## Duties

- New product development
- Cost reductions and product upgrades
- Occasional technical service supporting sales
- Insure SDS, Living Building Challenge, Greengard and LEED compliance
- Plans and performs daily work on projects
- Willing to perform "hands on" writing and compounding lab formulations
- Performs in house tests as needed
- Writes reports and communicates results to Operations and Engineering departments
- Set up and maintain lab reports and results
- Working knowledge of MS Office

## Education

BS in Chemistry or equivalent experience.

## What does Specified Technologies Inc. offer?

- Competitive Base Salary
- Medical, Dental, & Vision Insurance
- Company paid Life & Disability Insurance
- Flexible Spending
- College Savings Plan / 529
- 401K Plan with company match
- Paid Time Off
